

## AVAILABLE CHARACTERS

**Daisy Kane** – A Texan beauty, Daisy always dreamed of moving off world and operating the heavy diggers. Making due with what was available, she cut her teeth on major mining operations on Earth before her first big show on Mars. She's full of adventure, and wants to get rich on the mineral wealth so she can retire before she's 25.

Daisy's a curly haired, blonde bombshell with an adventurous spirit and unwavering smile. She wears oil soiled blue overalls and a white shirt with a black skull on it. She keeps her golden locks pulled back with a Hello Kitty-esque bandana.

**Tom "Core" Keeling** – A once prominent political figure in America, Tom spent most of his political career lobbying for Solarus Corp. However, leaked information reached Tom's desk one day, source unknown, linking his employers to unethical research practices on the surface of Mars. Working in conjunction with this mysterious benefactor, Tom now works on Mars, operating a digger as cover to investigate and uncover indisputable evidence of his employers' practices. When asked about the change in position, Tom simply explained he desired a life away from the spotlight.

Tom is a dashing gentleman, dressed well even when operating his digger. He's middle aged, greying at the temples, but otherwise the picture of a handsome devil.

**Ivana Korlov** – A raven haired vixen once employed by the government as a secret agent to infiltrate powerful corporations and report their activities. When the Russian mafia came knocking, offering untold wealth for her to join Solarus Corp in their excavation of mineral wealth from Mars, she couldn't pass up the offer. Working directly for the mafia, Ivana seeks personal wealth while making Solarus Corp and its dirty-money investors more powerful than many small nations. Ivana is black haired and blue eyed. Her hair is unnaturally straight, and her face vacant of emotion.

**Demitri Ubekov** – Demitri is a former Olympian turned driller after an accident that left him paralyzed from the waist down. Once a proud, multiple gold winning skier, he turned to Solarus Corp as a means to promote the ideals of his country in another way. Serving Russia's purpose, furthering their progress in the advent of space travel and uncovering powerful ancient minerals is but one small way he contributes.

Demitri is a young, muscled man. A Dolph Lundgren of Mars.

## UNLOCKABLE CHARACTERS

**Karl Redden** – Karl's family was born on Mars. He was the first generation born to the facilities there and was raised to be the next great Digger. With the weight of his family heritage on his shoulders, he pushed harder and deeper than any others had before. Known for his total lack of respect for safe practice, he quickly became one of the most well respected and wealthy diggers in Solarus' corporate history. Until his unfortunate accident that left him stranded well below the surface.

**Ana Banketik** – A promising young Russian geologist who took on the dangerous career of Mars digging as a means of furthering her own research. She's a fiercely intelligent, driven woman with a passion for discovering new minerals and finding innovative ways to process them for advancing the plight of humanity back home on Earth.

**4 Secret Characters** – To be discovered by the player.
